

Sacred Space Prayer

By Maressa Fonger McKee Feb 2021

I use my divine will through these words in this ever present moment to create sacred space. This sacred space is a unified energy field of unconditional love, peace and bliss that I invoke through this prayer and awareness.

This field of sacred space emanates from my heart chakra + surrounds the entirety of my being physically and non-physically. My energy field, body, mind, soul, I am presence, is sacred. This means, that only the resonant frequencies of unconditional love, peace and bliss are allowed in my sacred space.

Sacred is my ultimate worth, legacy and birthright.

I anchor this vibration of Sacred through my body and ground fully into the earth, to connect with the sacred space of Mother Earth in equal co-creation, non-competition + non-hierarchy. I am at home in my sacred space, in the well-spring of my own heart.

Through this continued practice of evoking sacred space, may my cups be filled to overflowing and may I shine and emanate the sacred with grace.

And so it is.
